

CALL FOR PAPERS AND PARTICIPATION

Telework 2017

– Building Sustainable Work Ecosystems

5 – 6 October 2017 Turku, Finland

CALL FOR PAPERS

New forms of work and work ecosystems penetrate our everyday life in a growing pace with increasing digitalization. Ingredients for better or worse workplaces, work satisfaction and productivity are available. What happens depends on our understanding on the options and on our willingness to act. Digital workplaces need a well-educated workforce, and in digital environments, education becomes a cornerstone of workplace productivity even more than ever before. Telework can answer the demands of the current labour markets with simultaneous dimensions of sustainability and flexibility.

Paper are accepted in two categories:

- full academic papers with 4000-6000 words
- short position papers, even with practical focus, with maximum 2500 words

Topics for the conference include but are not restricted to the following:

- Telework trends and statistics
- Socially responsible telework for sustainable work environment development
- Innovation, education, intellectual capital and telework
- Inclusion and tackling society segregation through new work arrangements
- Telecommuting and comprehensive organizational development: the company of the future
- Environmental impacts of telework
- Healthy workplaces
- Challenges of digitalization for telework
- New technical solutions for telework
- Security challenges of telework
- Telework in life management

Timetable for submissions:

Paper proposals	1 August 2017
Acceptance	30 August 2017
Final versions	15 September 2017

All accepted papers will be published in Turku Centre for Computer Science (TUCS) General Publications series (see <http://www.tucs.fi/publications/series/general-publications/>). In addition, discussions to prepare a special issue to some academic journal with 5-7 best conference papers are under way.
